

Fynian Walker

Computer Science Student — University of Colorado Boulder

Denver / Boulder, CO | (303) 956-0333

Fynian.walker@colorado.edu

github.com/Fyn-walk | linkedin.com/in/fynian-walker-a4a773340

Computer Science junior at CU Boulder with hands-on experience shipping full-stack production software and a growing focus on cybersecurity. Designed and built a full-stack platform (Next.js, TypeScript, Supabase, Stripe) currently used by a 1,500+ member organization, alongside several C++ and Python projects applying data structures and algorithms. Currently completing coursework in algorithms, database systems, and cybersecurity fundamentals, and looking for a software engineering or cybersecurity internship.

EDUCATION

University of Colorado Boulder — B.S. Computer Science

Expected May 2028

Junior | Major GPA: 3.20

Coursework: Data Structures, Computer Systems, Discrete Structures, Software Development Methods & Tools; currently in progress — Algorithms, Database Systems, Introduction to Cybersecurity, Data Science with Probability & Statistics, Linear Algebra with CS Applications

East High School

Denver, CO • 2024

TECHNICAL SKILLS

Languages C++, Python, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks & Tools Next.js, React, Supabase, Tailwind CSS, Bootstrap, Git/GitHub, Stripe API

Concepts Data Structures & Algorithms, Full-Stack Development, Relational Databases, Authentication & Authorization, Cybersecurity Fundamentals

PROJECTS

Pi Kappa Phi Eta Gamma Chapter Platform

Next.js, React, TypeScript, Supabase, Stripe

Personal Project — live at etagammaalumni.com

- Designed and built a full-stack platform end to end (database schema, auth, API routes, UI) for a 1,500+ member organization, replacing a set of manually maintained spreadsheets
- Implemented authentication and role-based access for member profiles, admin approval workflows for new-member intake, and exec board management tools
- Integrated Stripe for an alumni donation flow and built a chapter feed with image uploads

Dungeon Crawler Game

C++ | CSCI 2270

- Built a text-based dungeon crawler using graphs for procedurally generated maze navigation, linked lists for inventory management, and hash tables for item lookup
- Implemented Dijkstra's algorithm for pathing and a full save/load system on top of an object-oriented design

Tower of Hanoi Solver

Python | CSCI 2824

- Implemented a recursive solution to the Tower of Hanoi problem with a Tkinter GUI to visualize each move, as part of coursework in discrete structures

Personal Calendar App & Portfolio Website

JavaScript, HTML/CSS, Bootstrap | CSCI 3308

- Built an event calendar (create/edit/delete, date filtering) and a responsive personal portfolio site, both deployed on GitHub Pages

WORK EXPERIENCE

Server/Bartender, Host, Busser — Cuba Cuba Sandwicheria & Margs Taco Bistro

Denver, CO • 2021–2025

- Balanced high-volume customer service with order accuracy and timing across front-of-house roles, coordinating directly with kitchen and bar staff during peak hours
- Managed guest information and reservations, and trained into a bartending role handling multiple simultaneous orders

LEADERSHIP & ACTIVITIES

- Co-Founder, Boys to Men** — men's mental health club
- Pi Kappa Phi, Eta Gamma Chapter** — active member; built and maintain the chapter's member platform
- Club Lacrosse**, University of Colorado Boulder; Varsity Lacrosse (4 years), East High School
- Volunteer**, Park Hill Food Pantry and Epworth Foundation
